Chemical Leaman Tank Lines, Inc.
Downingtown, Chester County

Carl L. Mease
Assistant Attorney General
Office of Legal Counsel

Through: Acting Director, Division
of Industrial Wastes

Chief, Operations Section
Division of Industrial Wastes

Your memo of October 22 inquired as to whether it was now appropriate for the Commonwealth to withdraw Court action. An inspection September 16 found the lagoons had been emptied and backfilled; however, grading to the original contour and seeding as required in Provision No. 6 of the notice sent to the companies by this Division on November 30, 1970, has not been completed. An inspection on November 16 found conditions to be status quo with grading still incomplete. The companies are being advised to complete their outstanding obligations before winter. Therefore, following completion of these, we will advise you so that you can take the appropriate measures needed to withdraw Court action.
